DoC Nr. 20240903-66-1-BHK

EN 422-1:2014

Towel radiator/horizontal flow radiator

490011015 - Luxe-375/ BHK Sahara 750*800 Weiß gerade + Mittel

In heating systems in buildings

Fire behavior:	A1
Release of hazardous substances:	none
Pressure tightness:	no leakage at 1,3 times the maximum permissible operating pressure [kPa]
Compressive strength:	no crack at 1,69 times the maximum permissible operating pressure
	- maximum permissible operating pressure: 500 kPa
Surface temperature:	maximum 120° C
Nominal heat output:	$\Phi_{50} = 488 \text{ W}$
	$\Phi_{30} = 263 \text{ W}$
Heat output for different operating conditions:	(curve) : $\Phi = 4,2451 \times \Delta T^{1,2128}$
Resistance:	
Corrosion resistance:	none performance determined
Resistance to minor damage:	none performance determined
